Crease Violation

Body Check: Contact with an opponent from the front or side between the shoulders and waist – when the opponent has the ball or is within 5 yards of a loose ball.

Box: An area surrounding the crease area, also called the goal area or defensive area.

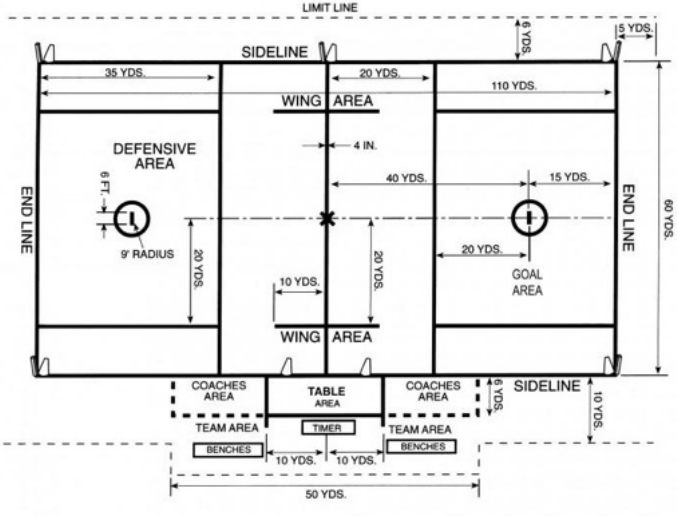
Clear: Transitioning the ball from the defensive half to the offensive half.

Crease: A circle around the goal with a radius of 9 feet into which only defensive players may enter.

EMO: A man advantage resulting from an opponent's time-serving penalty. Also known as "man-up".

Faceoff: This technique is used to put the ball in play at the start of the game, each quarter, half, or after a goal is scored.

GLE: Goal line extended, where the offensive player becomes a threat to score.



Hole: Another name for the area outside/in front of the crease area, the imaginary box, 10 yards by 10 yards in front of the goal.

Ride: The team who loses possession in the offensive end attempts to stop a clear, to prevent their opponent from advancing the ball, thereby creating a turnover.

Slash: An excessive (gray area) defensive stick check which strikes other than the legal areas of stick or gloved hand on the stick.
